#### **CSFM Certification Classes**

#### **RESCUE SYSTEMS 1**

40 hours

A basic course in Rescue Scene organization, ropes, knots, rigging and the use of basic tools and machines. This is a hands-on course. Participants will need to bring appropriate personal protective equipment for working with ropes and

Bring Appropriate Personal Protective Equipment. Additional \$150 Materials and CSFM Certification Fees.

Sunday through Thursday

#### INSTRUCTOR ORIENTATION FOR STATE FIRE TRAINING

8 hours

This course is required for potential instructors who want to teach State Fire Training certification courses (CFSTES classes). Topics include an overview of State Fire Training, instructor registration requirements, how to setup and return classes, certification tracks, instructor responsibilities, and the curriculum development process. \$125 materials and certification fee.

There will be a Pace II review after the class. You MUST bring appropriate certifications and letters with you to the PACE review. Check CSFM requirements for desired certifications prior to class.

Monday or Tuesday

#### RAPID INTERVENTION CREW TACTICS

16 hours

This course was developed by the Northern California Training Officers. Now that your department policy requires you to have a RIC, do you know what these people do and what specific methods and techniques they need to know to perform fire fighter rescues? This is an exciting class that you can take back to your department and teach right away. Participants will receive a student manual, instructor guide, and a PowerPoint® presentation on CD-ROM. This is a very "hands-on" course. Bring full personal protective equipment and SCBA. Additional \$30 CSFM Certification fee.

Mon and Tues or Wed and Thurs

#### FIRE CONTROL 4A & 4B Train the Trainer - FLAG TRAILER

Potential fire control instructors will be provided with an overview of Fire Control 4A Flammable Gas (Propane) and Fire Control 4B Flammable Liquids. The FLAG trailer will be used to cover the characteristics of flammable liquids and gas, their hazards, and tactics to use on flammable liquids and gas involved and not involved in fire. Fire Control 4A and 4B instructor guides are included with this class. Bring Full personal protective equipment (NFPA) compliant structural turnouts with hood), Additional \$67 materials fee.

Wednesday or Thursday

#### **FIRE INVESTIGATION 1A**

40 hours

This course provides the participants with an introduction and basic overview of fire scene investigation. The focus of this course is to provide information on fire scene indicators and to determine the fire's origin.

Monday through Thursday

#### **CSFM Vehicle Extrication Course**

This course provides students with hands on experience in the procedures and systems utilized during an automobile extrication. Subjects covered include: Auto extrication size-up, types of incidents, safety precautions, ICS for auto extrication, types of hand and power tools, removing windows, opening doors, removing roofs, pulling steering wheels, moving foot pedals, raising dashboards, pulling seats, stabilization of vehicles, and simulated rescues of trapped victims.

Bring full personal protective equipment.

Monday and Tuesday

#### **Special Interest Classes**

#### **EXECUTIVE LEADERSHIP INSTITUTE - THE FIRE CHIEF**

Presented by the California Fire Chief's Association, this course is designed to provide new Chief Officers with a well-rounded overview of the California fire service. Contemporary issues and networking with your peers will be the focus. Total Fee is: \$325 for CFCA members. \$425 for non-members.

Monday through Thursday

TRENCH RESCUE

The trench Rescue class will focus on the first responder/rescuer. The emphasis of the class is as follows: hazard recognition and mitigation, soil classification and hazards for each type, OSHA requirements, basic shoring principles, case studies, and hands on shoring in trenches. The class takes the

#### Symposium 2003 - Class Descriptions

student from basic familiarization to actual trench shoring techniques. CSFM certificate is available.

Bring Appropriate Personal Protective Equipment. Additional \$25 Materials Fee.

Monday and Tuesday

#### FORCIBLE ENTRY / THROUGH THE LOCK

The latest and greatest techniques in forcible entry. See the newest concepts and some fresh ideas on how we can get in quickly and still leave the property owner with a positive attitude. Learn how to get by locks with little damage.

Wednesday or Thursday

#### **VENTILATION PRACTICES**

This class deals with establishing and supporting vertical ventilation, safety considerations, the most commonly used tools, existing roof openings, roof construction, lightweight roofs, roof coverings, and opening the roof. Even though ventilation is not a method of fire extinguishment, firefighters can use it to fight the fire safely and more effectively and to reduce property damage. The class will have hands on using a specially constructed roof prop.

Bring Personal Protective Equipment. Additional \$50 Materials Fee. Monday and Tuesday

#### PUBLIC SPEAKING SKILLS

8 hours

Kim Alyn will present an entertaining workshop that will cover the do's and don'ts of public speaking and cover some creative ways to get your point across. Improving your communication skills will be incorporated as well as techniques for inspiring others. Topics include: Humor in your presentation, props, visual aids, PowerPoint, how to give an effective interview, common mistakes in public speaking, thinking on your feet, and the lost art of listening. Monday

#### CONFLICT PREVENTION AND RESOLUTION

8 hours

Kim Alyn will cover the important elements of conflict prevention and resolution. Conflict resolution techniques and disciplinary issues will also be addressed.

Tuesday

#### LEADERSHIP IS NOT FOR WIMPS!

8 hours

Learn from Kim Alyn that Leadership is not for wimps. This class will cover the important skills necessary to become an influential Leader.

Wednesday

#### POWERPOINT COMPUTER LAB

8 hours

PowerPoint 2000: This program will include how to prepare a presentation outline and add animation effects. Learn how to add objects and insert pictures using a digital camera. This hands-on program will walk students through preparing a presentation.

Wed or Thurs

#### TRAINING PROGRAM MANAGEMENT

16 hours

Hank Gilliam will present this class on how to manage, lead, and implement an in-service training program. The course also covers development of a training mission and philosophy, and identifying and solving training program problems. Chief Gilliam has made this a benchmark class for the Fall Symposium.

Monday and Tuesday

#### TANK FIRES

8 hours

"Tactics for Fighting Large Scale Flammable Liquid Fires" Topics include: Flammable liquid fire safety, Fire Foam Technology, Safely engaging and extinguishing a fully involved tank fire, Learn about 3D fires, the 3 rules of extinguishing flammable liquids fires. The class will include classroom discussions and hands on demonstrations.

Monday

Large Area Search Techniques Search Techniques for large buildings. 16 hours

#### Wednesday and Thursday

#### **COMPANY OFFICER PREPARATION**

This two day course is designed to prepare the candidate for company officer. This class will consist of four modules: Making the Transition to Management, Making Good Decisions the First Time, Significant Management Policies-Know'em and Follow'em, and What Else Do I Need to Know?

#### Wednesday and Thursday

#### LINE OF DUTY DEATHS

This seven and half hour course is designed to be presented to fire service supervisory, managerial and policy making/influencing personnel. The US Fire Administration has set a goal of reducing firefighter line of duty deaths by 25% within five years. One of the paths to reducing line of duty deaths is to understand the causes of the fatalities and discussing methods for eliminating line of duty deaths. Participants will look at the statistics, laws, regulations, standards, impacts, risk management, pre-incident planning, training safety, wellness concepts, and comprehensive incident management. All participants will receive a student notebook and directions to various model programs provided by fire agencies from throughout the country.

#### Tuesday

#### WEAPONS OF MASS DESTRUCTION TRAIN THE TRAINER

CAL JAC Train the Trainer class provides training to respond to acts of Terrorism. The class topics include: Overview of B-NICE agents and devices, Initial Actions, Safety and Survival, and Case Studies.

#### Tuesday or Wednesday

#### TRAINING MANDATES

8 hours

Training mandates are a collection of laws, regulations, and their interpretations that define what training a fire department is legally required to deliver to its personnel. Most of these mandates are regulations of the California Occupational Safety and Health Administration (CalOSHA). Compliance with these mandates has three goals: worker safety, performance to recognized standards, and reduction of liability for the city and its employees. The pressure for meeting all mandates has increased since passage of AB 1127 eliminated immunities of government personnel from civil and criminal prosecution. Presented by Dave Schoonover, San Jose Fire Dent

#### Monday

#### **ICS Classes**
